

**WELCOME TO DOCTOR HOUSE
CARDIO-VASCULAR CENTRE**

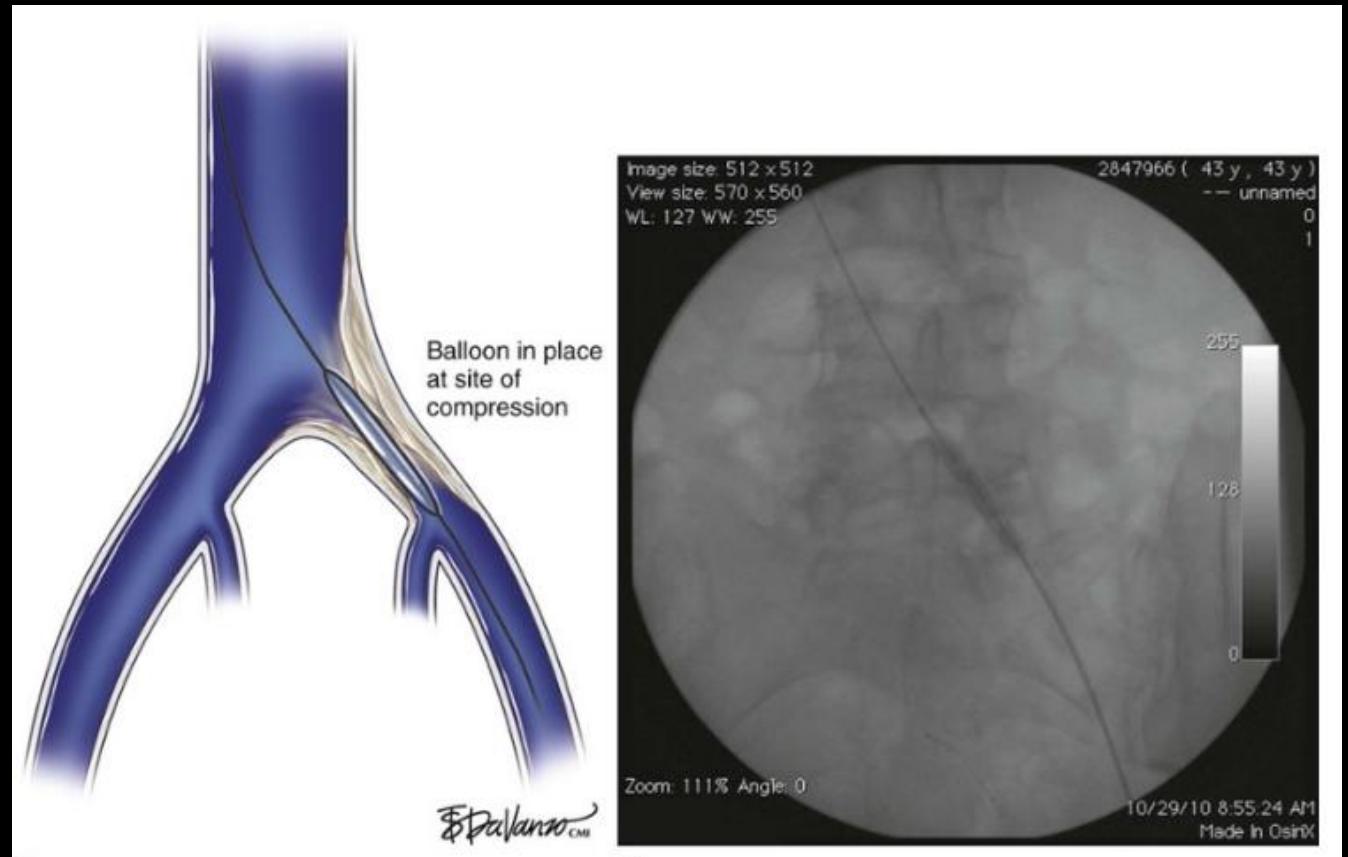

**Angioplasty and Stenting of
the Left Iliac Vein**

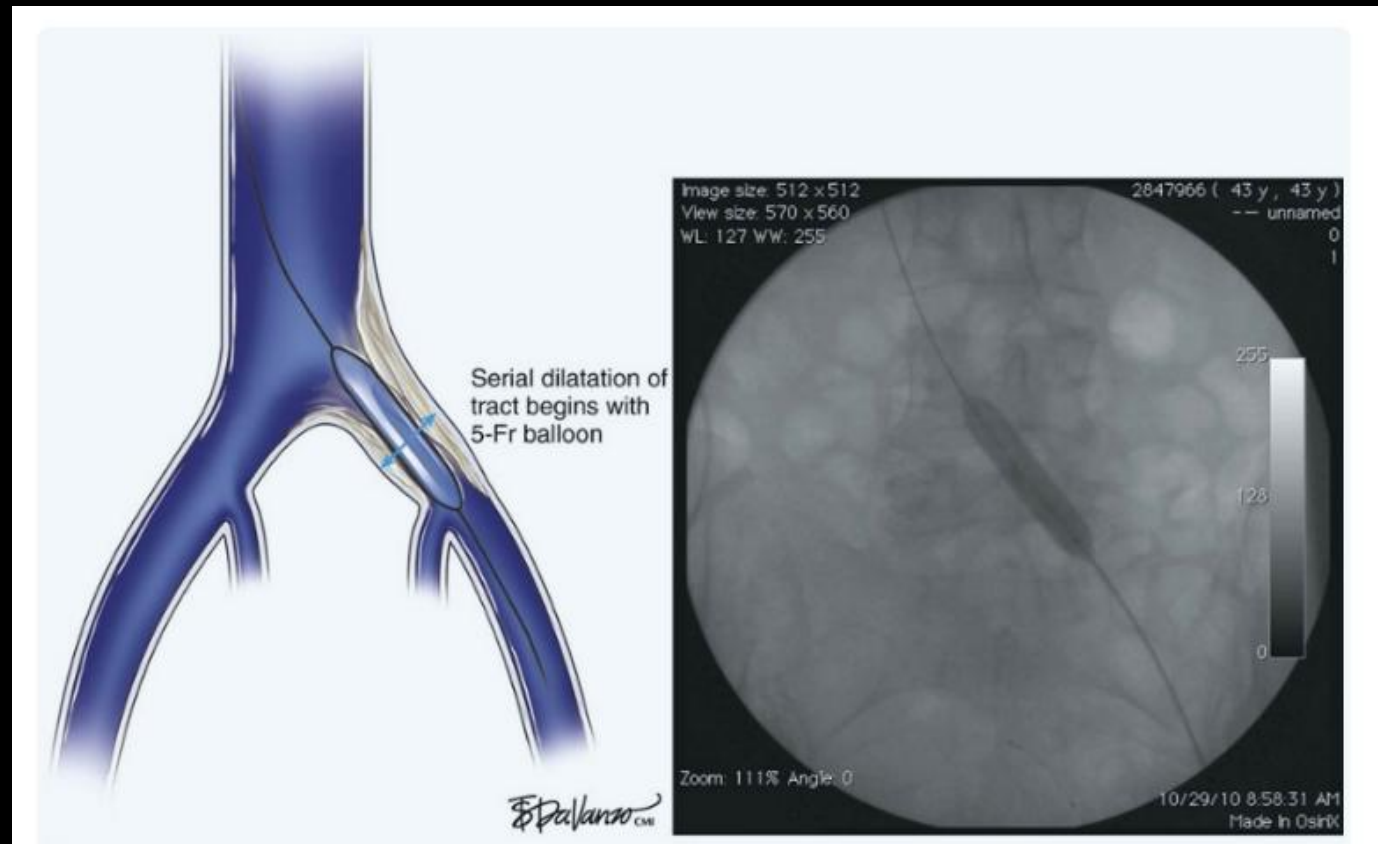

Non Surgical Recanalization (Opening up) of Chronic Occlusion of the Left Iliac Vein

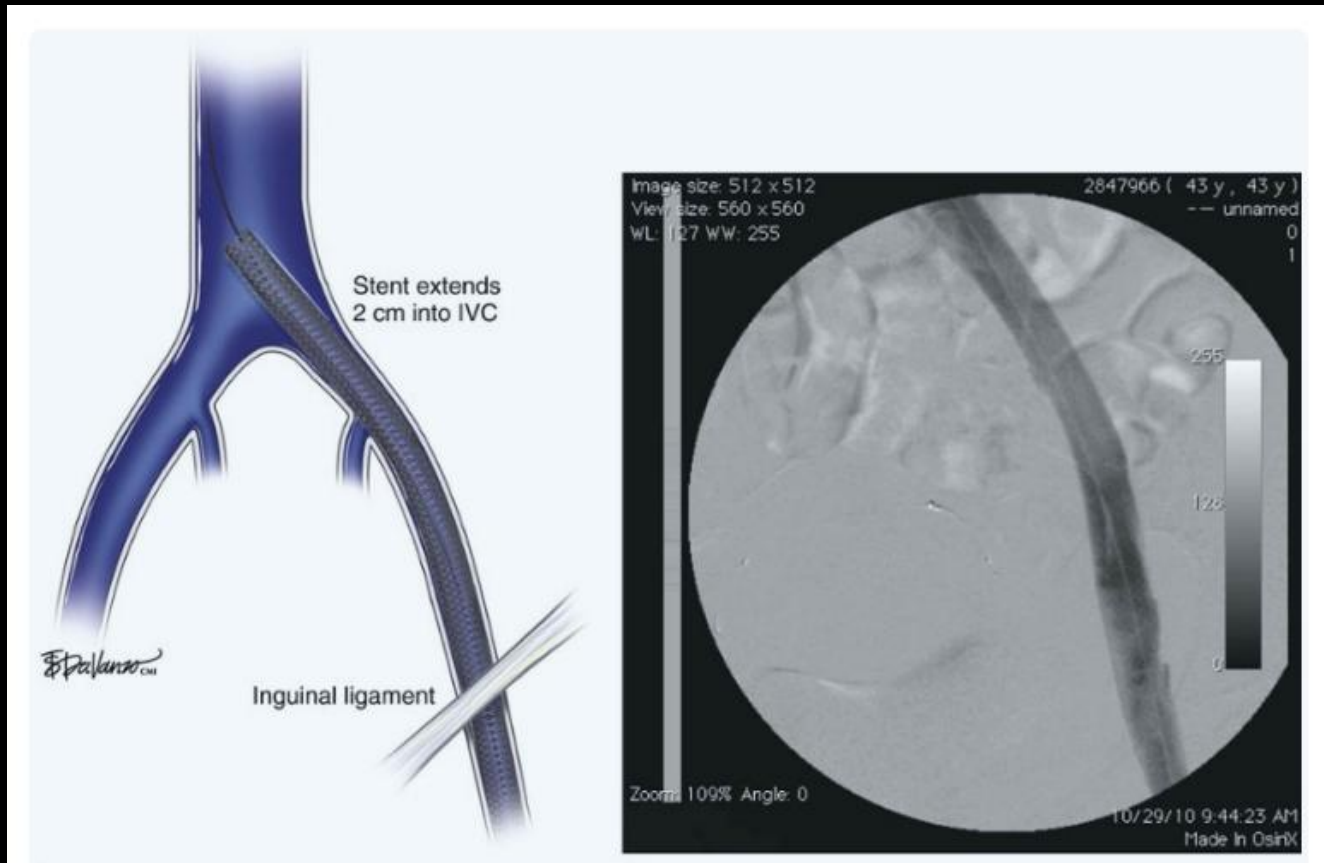

Guide wire passed
across the
narrowing /
blockage in the
vein followed by
balloon placement
across the
narrowing

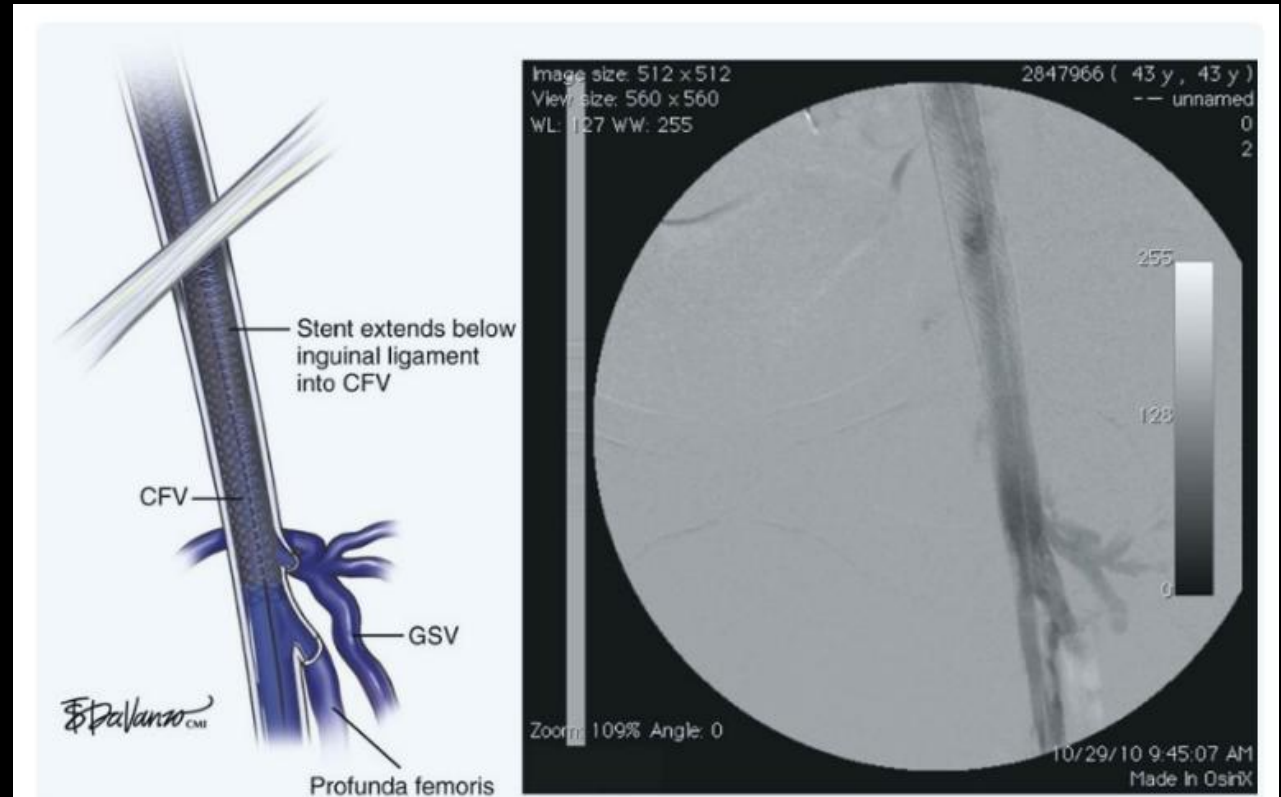

Balloon dilatation
of the vein using
progressively
larger balloon
sizes

Stent Placed in the Vein

Final Result shows
fully opened vein with
good flow after stent
placement

Thank You For Watching Presentation
